

Q. What do these leading natural products suppliers have in common?

A. An Efficient Supply Chain

Electronic order submission through the Living Naturally network.

- Setup a direct ordering interface with our network of thousands of natural products buyers—we will customize a data interface to suit your warehouse order management system.
- Slash labor and telecommunication costs (fax, phone)—manual data entry of orders could be costing you anywhere between \$5-20 per order.
- Reduce order processing errors, mis-ships and returns—have your customers submit their orders to you electronically.
- Increase sales by showcasing your monthly deals to our vast network of natural products retailers and supplier sales reps.
- Provide your customers with a value added service by sending them back electronic invoices after they submit their order.

In today's economic environment, suppliers need to operate at maximum efficiency to stay competitive. **Don't waste another dollar processing orders manually**—get connected to the largest online buying network in the natural health industry.

Call us TODAY and we will show you how you can save thousands of dollars per year.

Living Naturally hosts the largest online natural health network in the world. With more than 2000 industry buyers and over 1.5 billion in annual orders processed, the network is expanding rapidly with our scanner deployment partnerships with leading distributors UNFI and Tree of Life.
